1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Michael Belanger on 2/8/05.

1) In claim 45, page 2, last two lines are deleted.

2) In claim 46, line 2, starting from "for the..." upto " ... w = 4" on line 4, is deleted and - - and - - is inserted between "atom" and "R₂" on line 2.

2) Claim 50 has been canceled.

3) In the specification, page 1, before 1st line, following is inserted;

- - This application is a 371 of PCT/US98/07806, filed 04/21/1998- -.

3. The following is an examiner's statement of reasons for allowance: The closest prior arts are Tomalia et al(US'337), Spivack et el(US'472) and Dickson et al. Tomalia et al, column 15, example 1, Spivack, column 3, line 45, and Dickson et al, column 2, line 50, teach structurally similar compounds as claimed herein. However, the definition of L is different in herein and there is no motivation to modify prior art to have L to be unsaturated group. Likewise can be said for US 6,673,192, which in columns 9-10 teach structurally similar compounds as claimed herein. However, there is no unsaturated group in between the two amino nitrogen. Hence instant claims are patentable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
